EFFECTIVE ORAL PRESENTATIONS WORKSHOP
by Jean-luc Doumont, Principiae

Strong oral presentation skills are a key to success for engineers, scientists, and other professionals, yet many speakers are at a loss to tackle the task. Systematic as they otherwise can be in their work, they go at it intuitively, sometimes haphazardly, with much good will but seldom good results. Based on Dr Doumont's book about “effective communication for rational minds,” this lecture proposes a systematic way to prepare and deliver presentations. Among others, it covers structure, slides, and delivery, as well as stage fright.

Tuesday April 7th 2015, 9am – 1pm
Natural Sciences 2, room 2201

Lunch will be provided.
RSVP by Friday March 13th, 2015
